# **My Background**

TOP-LEVEL CANOE SLALOM ATHLETE FOR 10 YEARS

My first paddle strokes date back to spring 2009, at the Val d'Indre water sports centre in Veigné. Initially driven by fun and discovery, I took part in my first youth competitions in 2011. My appetite for sporting competition grew rapidly: in 2015, I took my first steps on the international stage, competing in a higher age group because I was still too young for the Junior category.

Having grown up between two cultures, French and Mauritian, I chose to represent Mauritius. This dual identity fuels my vision: to combine performance and openness, inspire young people from all walks of life, and prove that cultural diversity is a strength.

## A VARIETY OF ACTIVITIES

A sportsman at heart, I don't limit myself to canoe slalom. I enjoy practising other disciplines, developing my versatility and maintaining overall physical fitness. But I also like to keep in touch with 'fun/relaxation' sports to contrast with the demands of slalom training.

---

## PROFESSIONAL LIFE

My ambition is to become a professional athlete and make a living from my passion. Aware that a sporting career is by nature short-lived, I am also preparing for the future: I am studying computer engineering (software development) and I have qualifications as a kayaking coach. This balance between high-level sport and academic training demonstrates my ability to manage several demanding goals.

**But the most important thing is that the rest of the story remains to be written, and potentially with you!**

# **Why Become a Partner**

# **How to help me ?**

## **A preference for sponsorship and its advantages**

Sponsorship comes in three forms:

**Financial sponsorship,** which is a cash donation.

**In-kind sponsorship,** which is the donation of goods or services.

**Skills sponsorship,** which is the provision of staff free of charge during their working hours.

### **EXAMPLE:**

**YOU GIVE US €200 AND YOU CAN DEDUCT €120 FROM YOUR TAXES. THE ACTUAL COST TO YOU WILL THEREFORE BE €80.**

CANOE SLALOM  
PARIS 2024

**benefits**

The company can deduct 60% of the donation amount from its taxes, up to a limit of 0.5% of annual turnover.

If the ceiling is exceeded, the company can carry over the excess to the following five years.

The law does not provide for any compensation for the sponsor, but case law allows for a tolerance margin of up to 25% of the estimated amount of the donation\*.

\* I therefore undertake to display your logo on my website and on my social media accounts.

**There is no such thing as a small helping hand, just gestures that make all the difference.**
